All results in this report were generated at Lab Link Testing using validated methods that have been approved by the CRA, unless otherwise noted. Reported values relate only to the product tested. Pass/Fail statements are relative to action limits determined by the CRA per Michigan Administrative Rule 420.305. Each component is recognized as a portion of this complete report which may not be reproduced, except in full, without the written approval of Lab Link Testing. All products were collected in accordance with Lab Link Testing's sampling procedure, SOP-FS, unless otherwise noted. Measurement uncertainty related to reported values is available from Lab Link Testing upon request. \*\*SOP-POT-AG & SOP-SYNTHC are not currently on Lab Link's ISO 17025 scope
