The reported results are based on sample weight with the applicable moisture content for the sample, unless otherwise stated all quality control samples performed within specifications established by the laboratory: using a LCMS, Method: Potency SOP2 Prism Triangle, LLC must analyze a minimum 0.5-gram representative sample of marijuana product to determine the cannabinoid profile. The limit of quantitation (LOQ) of 1.0 mg/g or lower for all required cannabinoids analyzed and reported on the published COA. Please refer to R. 420.305 (9) and R. 420.305(3)(a). "Target Analyte" is defined as non-marijuana inactive ingredient designated for analysis.

ND=Not Detected, NR=Not Reported, LOD=Limit of Detection, LOQ=Limit of Quantitation. This product has been tested by Prism Triangle, LLC, using valid testing methodologies and a quality system as required by state law. Values reported relate only to the product tested and batched under the batch number identified above. Prism Triangle, LLC makes no claims as to the efficacy, safety, or other risks associated with any detected or non-detected level of any compounds reported herein. This Certificate must not be altered, and shall not be reproduced except in full, without the written approval of Prism Triangle, LLC. The collection of the samples tested follows the SOP of the Sampling -001. Measurements of uncertainty are not used to determine passing and failing criteria.

The reported results are based on sample weight with the applicable moisture content for the sample, unless otherwise stated all quality control samples performed within specifications established by the laboratory: using a LCMS, Method: Pesticides-003-sample prep.

Prism Triangle, LLC analyze a minimum 0.5-gram representative sample for analysis of chemical residues (Pesticides), any result that exceeds the action limit is a failed sample. Please refer to the CRA sampling and testing guide for chemical residue actions limit on table (4), page 7 & 8.

ND=Not Detected, NR=Not Reported, LOD=Limit of Detection, LOQ=Limit of Quantitation. This product has been tested by Prism Triangle, LLC, using valid testing methodologies and a quality system as required by state law. Values reported relate only to the product tested and batched under the batch number identified above. Prism Triangle, LLC makes no claims as to the efficacy, safety, or other risks associated with any detected or non-detected level of any compounds reported herein. This Certificate must not be altered, and shall not be reproduced except in full, without the written approval of Prism Triangle, LLC. The collection of the samples tested follows the SOP of the Sampling-001. Measurements of uncertainty are not used to determine passing and failing criteria.
